## RECRUITMENT DAY

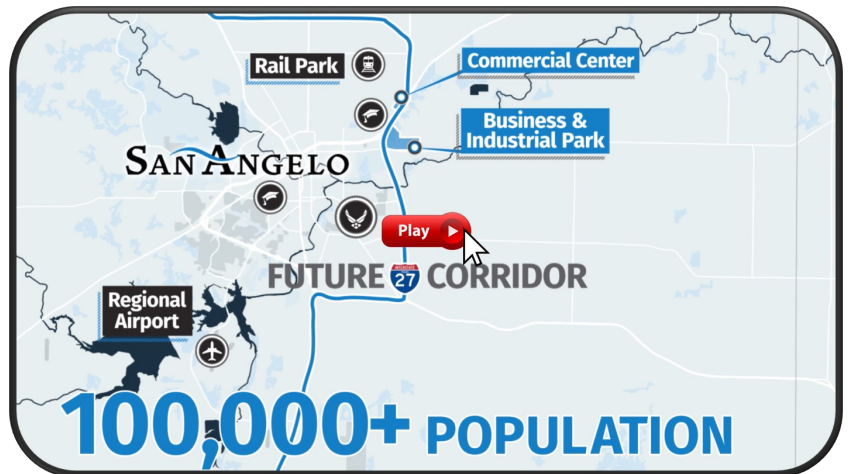

This year 120 graduating seniors enrolled in the San Angelo ISD Career & Technical Education (CTE) Pathways had the opportunity to connect with local businesses in CTE-related industries at the 3rd Annual Recruitment Day on May 2. Throughout the day, students, ready with their resumes, participated in multiple "speed-dating" style interview sessions with representatives from various businesses, practiced interviewing skills and learned more about the companies. Recruitment Day is about providing access – employers access to a pool of students with certifications and entry-level experience, and students access to a pool of employers looking for experienced individuals ready to enter the workforce. Recruitment Day is a collaborative effort of SAISD's Career and Technical Education department, the San Angelo Chamber of Commerce Economic Development Department and the Concho Valley Workforce Development Board. The event began three years ago as "Fabricator's Recruitment Day," to address the overwhelming need for employees in the welding and fabrication industry. Participation from students and businesses in Recruitment Day has grown exponentially since initial implementation of the event. This year, 23 local businesses and SAISD departments in the CTE industry participated, expanding the array of represented industries from welding and fabrication to include health sciences, education and training, construction, and automotive. The following businesses that helped make Recruitment Day possible include All American Chevrolet, City of San Angelo, Jim Bass Ford, Brothers Plumbing, Housley Communications, IBEW Local 520, Lower Colorado River Authority, Baptist Retirement Community, Home Instead, MHMR of the Concho Valley, Shannon Health Systems, Heare Services, Long Industries, Reece Albert, W&W AFCO Steel, Wendland Manufacturing and Western Towers.

## TEXAS CAREER SIGNING DAY

This event was part of a nationwide celebration showcasing the impact Career & Technical Education (CTE) programs have on addressing the U.S. skills gap. Seniors at San Angelo ISD CTE program showed their intention of enrolling in a university, community college or technical school; entering the workforce; or joining the military after graduation during the 2nd Annual Career Signing Day on May 7. The goal of Career & Technical Education is to continue preparing students for in-demand, high-wage careers to meet the workforce needs of the Concho Valley and beyond. Through a partnership with Howard College, SAISD students in the CTE pathways can obtain technical dual credit courses taught by Howard College instructors or SAISD employees who are certified adjunct faculty. CTE Career Signing Day was made possible through a partnership between SAISD's CTE department, San Angelo Chamber of Commerce's Economic Development Department, Concho Valley Workforce Development Board, Texas Workforce Commission, and Howard College.
